A BEACON OF HOPE ON THE HILL; A SMALL SCHOOL MAKING A BIG DIFFERENCE

Executive Headteacher: Mrs Ruth Noall

14th May 2021

Dear Parent/Carer,

Re: Relationships Education at Dundry in 2021: OAK CLASS PARENTS

In September 2020 the teaching of Relationship Education became compulsory in primary schools, although many schools like Dundry have been teaching this for a while. It is important for children to be taught the building blocks of how to form healthy relationships. For the past two years at Dundry we have used a scheme called Jigsaw to help us teach children about relationships in an age-appropriate way. The Jigsaw scheme also introduces children to how their bodies are changing inside and out as they grow up, teaching children how to stay healthy and, as they progress into key stage 2, what to expect in puberty. When children are in Year 6 the lessons also teach children about how babies are conceived and how they are born.

Due to the lockdown of last summer, all children have missed some of their Relationships and Changing Me units of learning. Therefore we have reviewed what we will teach in each year group this summer to ensure we cover any missed content from the previous year. We will be teaching some content in split year groups and in one lesson on puberty we will teach the children in split gender groups.

These are the aspects of RSE we will be covering in Year 5;

- Pupils learn about the changes that occur during puberty
- Pupils will learn the importance of looking after themselves physically and emotionally
- Pupils will learn about conception in simple biological terms

These are the aspects of RSE we will be covering in Year 6;

- Pupils learn about the changes that occur during puberty
- Children will be asking and answering questions about puberty
- Pupils learn to consider different attitudes and values around gender stereotyping and sexuality and consider their origin and impact
- Pupils learn what values are important to them in relationships and to appreciate the importance of friendship in intimate relationships
- Pupils learn about human reproduction in the context of the human lifecycle from conception of a baby to birth

Below links to two documents that I hope you will find helpful:
