

Drawing Club will be introduced as our daily English input. We will use a different book or animation each week, learning new vocabulary and creating our own pictures and mark making to illustrate characters, settings and 'What if' scenarios. As the children grow in confidence with their phonics, we will use single sounds and cvc words to be the 'code' to enable the picture to come to life!

## Phonics

We will start learning sounds from Phase 2. They will have sound books to practise at home, and we will play games to help with blending words.

Towards the end of term 1 there will be Phonic info meetings for parents to find out about your child's phonics learning.

## All About Me Term 1

We will be building with different materials and identifying what we can see around the school and when we visit the church for Harvest.

They will have a 'real life' builder visiting to show them how to build a real wall with the tools he uses.

## Maths

We will be matching, sorting, lots of counting and finger maths this term. Subitising will also be a focus this term – this is when we can say how many are in a set/picture without counting.

When building our houses, and using construction, we will learn about 3D shapes and the best properties to build with.

## PSED

A lot of this first term is learning how to get on with others, make new friends and understand that our class rules are there to keep us safe and happy.

We will work on acknowledging our emotions and what to do if we need help.
