

Understanding the World

- Finding out about Space, rockets, planets
- Find out what pilots do as a job and how an Airport works
- Using the iPad to identify planets and ISS
- Tinkering - finding out how things work
- Using non fiction books to find out more information about space

Maths

- Number skills – number bonds, place value, addition and subtraction – number facts and application of these facts.
- SSM – repeating patterns, 3D shape – naming and applying to problems
- Time

Look up to the Skies!

Term 3

Please can you make sure book bags are in school everyday.

Our value this term is Hope

My one hope for Conifer class is that we can win Booksby (our school Bookworm) this term for being the class with the most home reads – so keep on reading at home please!

Communication and PSED

- Using Team Bee to focus on teamwork and using communication to share ideas and sort out problems.
- Jigsaw theme is Dreams and Goals. We will talk about different jobs and how we can set our own targets to achieve what we dream about!

Using our reflective skills

Using our imagination on the art table and taking about the effects we have created

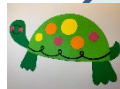

Asking questions about our Space topic. Asking questions and finding out about the 'Mystery Man'

Confidence to work with other children across the class and from different year groups.

Managing distractions – making good choices when others are not.

Expressive arts

- Week of weird – using different media, materials and techniques to create pictures and structures.
- Rocket role play
- Designing and making space rockets
- Tactile experiences such as gloop, gelibaff, water beads, mud kitchen
- Making musical instruments and using them to explore different sounds and effects.

Physical Development

- Using large apparatus to practise gymnastics skills
- Handwriting focus to make sure we are starting our letters in the correct place and they go in the right direction.

Literacy & Drawing Club

Drawing Club

Our books this term will be about Space and Air Travel

Did you know.....

- Some astronauts come back from space 5 cm taller than when they went!
- It took Tim Peake less than 9 minutes to reach space
- It takes about 3 days to get to the moon in a rocket
